Forecast For Yorkshire & the Humber
Issued by Met Office Exeter
at 0400 on Thursday 04 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with rain clearing from the south.

Today:
Cloudy with outbreaks of rain slowly clearing northwards through the morning. Remaining rather cloudy in the afternoon, but it should be less cold than recent days. Maximum temperature 8 deg C (46 deg F).

Tonight:
A cloudy evening with rain soon spreading in form the south. Outbreaks of rain will continue through the rest of the night and it will become increasingly breezy later. Minimum temperature 4 deg C (39 deg F).

Friday:
Remaining cloudy and breezy with further outbreaks of rain. However, it may become drier across the south of the region during the late afternoon. Maximum temperature 7 deg C (45 deg F).

Outlook for Saturday to Monday:
Cloudy and windy Saturday with showery outbreaks of rain and hill snow, turning increasingly wintry overnight. Cold Sunday and Monday with brisk winds, sunny spells and snow showers.
